PROFESSIONAL SUMMARY

Full Stack Developer (MERN) and final-year B.Tech IT student with hands-on experience in **Redis-based seat reservations**, **real-time messaging**, and facial-recognition attendance systems. Seeking a Full Stack Developer or Software Engineer role.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, Tailwind CSS, Zustand, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication
Databases: MongoDB, Redis
Tools & Cloud: Git, GitHub, Postman, Vercel, Render, Cloudinary
Familiar with: TypeScript, Next.js, MySQL, Redux, Docker, AWS, CI/CD
Fundamentals & Concepts: Data Structures & Algorithms, DBMS, Authentication, Concurrency Control

PROJECTS

Seat Lock Engine | Node.js, Express.js, Redis, MongoDB

GitHub: github.com/ayushkumar1420/seat-lock-engine

- Built a **Node.js/Express.js** reservation backend with Redis and MongoDB to prevent double-booking during competing seat requests.
- Implemented **atomic Redis locks with TTL expiry** and background cleanup to release timed-out and abandoned holds.
- Designed a **PENDING booking lifecycle** with **rollback on failed database writes** to keep Redis locks and MongoDB booking records consistent.

Real-Time Chat Application | React.js, Node.js, Socket.IO, MongoDB, Zustand

GitHub: github.com/ayushkumar1420/chat-app

- Developed a responsive React application with **Socket.IO** for **live messaging and online-presence updates**.
- Built Express.js **REST APIs** and MongoDB models for users and conversations, securing sessions with **JWT authentication**.
- Integrated **Cloudinary** for profile-image uploads and **Zustand** for client-side state management across mobile and desktop layouts.

Automated Attendance Monitoring & Analytics | Facial Recognition, MongoDB

GitHub: github.com/ayushkumar1420/Attendance-monitoring-system

- Built a **facial-recognition attendance system** that captures student faces and verifies them against stored records.
- Automated attendance updates in **MongoDB** after face verification to reduce manual record entry.
- Generated **attendance reports and analytics** to help teachers and administrators monitor student participation.

EDUCATION

B.Tech, Information Technology | Buddha Institute of Technology, Gorakhpur
Expected 2027 | Aggregate: 75.2%

Class XII (PCM) | Sanskriti Public School, Gorakhpur | 2022 | Percentage: 67%

Class X | St. Xavier's School, Bhatpar Rani, Deoria | 2020 | Percentage: 67%

RESEARCH & PRESENTATIONS

- Presented a **peer-reviewed research paper** at the **NCET-CSIT National Conference (2026)**.

LEADERSHIP & ACTIVITIES

- Collaborated with faculty and student volunteers to organize a technical event focused on **problem-solving and competitive programming**.
